5th Day – 8th Month – 5999s.c.

Important Message About 8th Month Calendar for 5999sc Calendar *CST**

Shalom, Due to the witness of the moon, we have had to make a Correction to this months (8th month) printed calendar.

At the end of the 7th month, we went out on the morning of the 29th day before sunrise, and was not able to see the last sliver of the moon. We also had one report from a sister in Iowa, who also stated she was not able to see the moon that morning. I wish we had more people watching who could send in reports, and even photos every week.

Anyway, we also looked for the 1st and 2nd slivers of the moon just after sunset on Rosh Chodesh and the next evening. But, we were blocked from seeing the moon at all, due to the total block out of the entire western sky by chemtrails.

However, **we have been able to watch the moon during the last several days this week.** And last night **we saw that the moon was smaller than it should have been for the 6th day of the week, and that it will be far under the first half phase tonight at sunset.** Which we had original thought that the 8th day Shabbat would begin tonight at sunset. But instead the moon will only be about 40% tonight.

Which means, **by reading the witness of the moon,** that tonight does **not** begin Shabbat. Instead it will begin the next evening, (*pagan friday night oct 27th at sunset*) when the moon will indeed be straight across Half or 50%.

Looking at moon phase projections, this looks like the Full Moon and the Last Half will also both occur one day after when we had first believed they would. The Full Moon and Last Half will both occur on following pagan friday evenings at sunset. So all Shabbats this month on the pagan calendar will be from *friday evening at sunset ~through~ saturday evening at sunset.*

As we have stated in the past, if for whatever reasons, chemtrails, storms, etc, that we (Yahsharel/Yisrael) do not begin a month at the correct time, then as we read the moon during the month, we can make the proper correction at the first half or full moon. We haven't had to make corrections like this often, but this month has been one of times.

For this correction, we have just published an Updated calendar for this the 8th month. This updated

calendar also shows the first half, full moon, and last half phases on the Shabbats. If your "8th month calendar" does not have these moon phases shown, then it is the old calendar. Please go download the new update at this link: <http://www.yhrim.com/Calendars/5999sc/5999 CST -8th Month - Corrected.pdf>

~Shalom
