

Shabbat Shalom Kol Yisrael,

At the going down of the sun last evening, began the **15th Day Shabbat of the 12th Month of the Year 5994** Since the Creation of Ahdam/Adam.

In Accordance with Yahuahs Word written in **Beresheeth/Genesis 1:14 - Tehillim/Psalms 19:1-4 - Schmuel Bet/2nd Samuel 11:1 - Divre Hayamim Aleph/1st Chronicles 20:1, and other verses.**

As the **Moon** began to rise, and as the **Sun** was going down, Together These being Yahuahs Two Witnesses in the Shamayim/Heavens, Have Spoken Forth and Declared that there will be a **13th Month this Year**.

*For those who say "There is no such thing as a 13th month" then you can go tell Yahuah that He did not give Ezekiel enough days, during the time period and Dates that is Explicitly written, to fulfill what He Commanded Him to do.*

**The teaching: "Is there a 13th Month Shown in Scripture? Yes!"** Can be found here:

Along with the other Proof that is hidden in the Sign given to HizqiYahu/Hezkiah:

**The Declaration Speech from BOTH Witnesses** can be seen below in these photos. We used our Military Sighting Compass to get the Exact **East** and **West** Directions.

I would have liked to photograph the compass showing the direction, but when trying to capture the compass in the photo (*which is very close to the camera*), while the camera is focused on the sun or moon and the horizon (*which is very distant*), the compass blurs out and you cannot see the dial, due to the focal length of the lens.

So the best that I could do, was after we took the photos, I have went back and added a line to mark the East and West directions, using objects in the photo as our markers. Also because the moon was somewhat faint in the photo due to clouds, we added an arrow pointing to the moon.

Also the Sun set directly behind a tree, so we added an arrow to point to it as well.

**Note:** Both of these Photos were taken with a few minutes of each other, at the going down of the sun/sunset which began the 15th Day Shabbat of the 12th Month of 5994sc.

First we look at the Sun as it is Going Down:

As you can easily see, the sun still has a ways to go Before it can **\*\*Turn\*\*** or Cross over its Primary Direction West. The sun is currently setting at approximately **258° Degrees North West**.

**Direct West** is **270° Compass Degrees**. So the sun still has to move **at least 12° degrees** before it can **\*\*Turn\*\*** over its Primary Direction **West**, which it **cannot do in two weeks time**.

Meaning that this **\*\*Turn of the Year\*\*** can **NOT** Occur in the **two weeks that is left in this month**.

With this knowledge, the **Sun** is **Declaring and Speaking Forth** that there will be a **13th Month** this Year. Which **during the 13th month**, the Sun Will have moved and **\*\*Turned\*\*** over Direct West, and will continue in its Northward Progression.

Now that is **ONE** Witness, but we must have **TWO**.

So lets continue and Read to see what the **Moon** has to say.

## Looking at the Moon as it is **Rising / Coming Up:**

Even though this was 10-15 minutes after the moon had first risen at the horizon, as we were unable to see it due to clouds until this time, it is still very evident that it is far being **\*\*Turned\*\*** over its Primary Direction of East. Direct East is **90° Compass Degrees**. According to computer data, the moon rose at approx **78° Compass Degrees** on the horizon. Meaning, it too has approximately **12° Degrees** before it **\*\*Turns\*\*** over its primary direction of **East**.

*Note: In this photo the moon has already risen about 5°-6° degrees above the horizon, yet it is still easily seen as approx 5° degree from east.*

***Additional Note:*** Unlike the sun, who's farthest Northward Progression to its farthest Southward progression, **takes an entire year to complete its cycle**. The Moon travels from its farthest Northward Progression to its farthest Southward Progression, in **Only One Months Time**. Because of this, the moon can only be read when it is full moon, around the time of the 15th day Shabbat.

By **Reading** the **Sun and Moon** for all day and times, and by **Reading** the **"Turn of the Year"**, we are able to know and understand if a year contains 12 months, or if it contains 13 months.

**No Man** can **add** a 13th month whenever **they** want.

**Barley** being **"Green Ears"** or **"Aviv"** does **NOT** Determine when a Year Begins or Ends.

*The word "Aviv" is **ONLY** a Name that Yahuah assigned to the **first month of the year**, which basically means "**when things turn green**" which most people today call "**Spring**". You cannot take a single Word, and build an entire doctrine on it, with no other Scriptures to back it up!*

**ONLY Yahuah** controls **HIS Calendar**, and **ALL of His Times**.

So The Year Can **ONLY** Be Determined by What He Assigned and **Laid Out Explicitly** in **Beresheeth/Genesis 1:14**, which is then backed-up and proved along with many other verses.

It is Spoken Forth By **His Two Witnesses**, the **Sun and Moon**. And **Together** they **Declare the Year**, just like they **Declare Together All Other Days and Times**. They are **Echad/Two Being Made as One in Unity**, and can Not Be "Divorced" or done away with by man, as some now teach.

If you do not understand how to Read the "Scriptural Turn of the Year" so that you are not reliant upon software, 'equinox', and other man made calculations. Then you need to study the teaching titled: **"How To Correctly Read & Determine The True Turn Of The Year"** The Direct Link to this teaching is:
