Subject: As the 22nd Day Shabbat Comes to a Close...

Shalom Kol Yisrael,

Shortly the sun will set which will end the Shabbat of the 22nd Day of the 5th Month of 5994s.c. and will begin the first work day of the week. We pray that everyone had a Tov Shabbat.

We just wanted to send out a short note this evening.

Early this week my Abba/Father Moshe EliYahu was walking out in the back yard, and look across the field of corn that is behind our house. Four or five years ago, the corn stood at least eight feet tall. This year, it was only about Four feet tall, and that was BEFORE they cut off the tops of the corn, as they are making hybrid seed.

As my Abba looked at the field, he went up to the corn, and picked up an ear. Looking at the ear of corn, it came to him mind **"The corn has produced as much as it will, now the rains will come."**

Just a day later, we had the first real rain fall in at least 3 months.

Then just after sunset, at the beginning of the 6th day of the week, it began to rain again, and over a period of hours up into the morning, storm after storm went through, and the rain poured down for hours. Thank Yahuah we didn't get any of the wind like some other places did.

Again late yesterday evening, we received even more rain. Today the grass which has been dried up, brown, and would "crunch" under foot, is finally beginning to show signs of life as green patches begin to appear. Mostly under the trees where it was slightly more protected by the shade.

But just as Yahuah brought it to my Abba mind, the crops are done. The rain at this point may only hinder them from harvest, or possibly even cause mold.

Here are some photos of the actual corn cobs in this field behind our house:

Which you should know, this is not just here, and not just the farms in this nation, but in most of the major grain producing nations all over the earth. We have heard and see many different places with corn that looks very similar to the above photos. The beans do not look any better either.

Last years crop, they cut down the corn, stalk and all, and turned it into silage, which they fed to the cattle, as it was a total loss. And This Years Crop is in much worse condition than last years crops.

Which was expected, and what we stated last year would occur. And Next Year will be worse than this year.

This is the 3rd Year of the 7 Year Global Famine. It will not get better. Yisrael must prepare right now before it is to late.

And as a reminder, We try to post the highlights and pertinent information about current events taking place around the earth, on our Facebook page.

Our Facebook page is publicly viewable, meaning you do not have to have a facebook account to view the posts, videos, and links.

"No Scripture Ever Contradicts another Scripture, if it seems to we just need to adjust our perspective until we can see them clearly. Unless you can use All of Yahuahs Word without throwing any out, you can't Teach that subject Fully or Correctly."

Ahmos /Amos 9:9-11 *"For, see, I will command, and I will sift Beit Yisrael among all nations, like corn is sifted in a sieve, yet the least kernel of grain shall not fall upon the earth. 10 All the sinners of My people shall die by the sword, who say, The evil shall not overtake nor find us. 11 In that day I will raise up the Sikkah of David that has fallen, and close up the breaches of it; and I will raise up its ruins, and I will rebuild it as in the days of old:"*

Luka/Luke 21:28 *"And when these things begin to come to pass, then look up, and lift up your heads; for your Geulah/Redemption draws near."*
